I've copied the shapefiles from EMMA and placed them in the checking folder.

Let me know if you need anything else.

Thanks Jose and Michelle.

[@Jose Lopez](#) Could you copy the shapefiles from the HLAN to this checking folder:
s:\PSC\CHPRC.C003.HANOFF\Rel.147\ECF-100HR3-22-0119-check-review\model-files-before-check-review\flow\Recharge_package_generation\RET_annual_shapefiles_HLAN\

Thanks,
Hai

Thank you Jose.

[@Hai Pham](#) find here the source of the shapefiles from the RET used to generate our recharge package for the 100HR3 model.

Cheers,
Michelle

Subject: RET Shapefiles Source

Hi Michelle,

We had talked about these shapefiles earlier today:

S:\PSC\CHPRC.C003.HANOFF\Rel.126\predictive_model\recharge_package\Recharge_package_generation\RET_annual_shapefiles

These shapefiles are from the RET 100-DH run which is documented in ECF-HANFORD-20-0136, Rev.0. EMMA is no longer on the S: drive and has been moved onto HLAN. This is where you'll find it:

\\hanford\data\sitedata\EMMA\EMMA\CHPRC\Applications\ECF-HANFORD-20-0136\rev.0

You'll need HLAN access to get to it. If you don't have access to HLAN I can grab you a copy of the shapefiles from the folder and place it on the S: drive. Just let me know if you want me to do that or if you have any questions.
